

CHURCH, COMMUNITY AND CHANGE

Does your church want to make a difference to the lives of the poor and marginalized in your community but lack the experience to actually move out into what is perhaps a new area?

Gweini partner Tearfund has developed the **Church, Community & Change Programme** to help your church members:

- Explore the Biblical teaching about the church's responsibility to the poor
- Think about their attitudes and values in relation to greater involvement with the community
- Identify needs by listening to the community
- Work with the community to provide an appropriate response to the identified needs

Tearfund provides:

- Handbooks and activities manuals
- An external facilitator who will provide training and support throughout the process
- Support, if required, for further development.
- To help you show God's love and bring about real, lasting and positive change.
